LAITH MERAI

Frontend Developer

📞 +963 993 141 202   @ laithmerai@gmail.com   🔗 linkedin.com/in/laithmerai/   🔗 github.com/laithmerai   📍 Latakia, Syria

SUMMARY

As an aspiring Front-End Developer, I create intuitive and visually engaging user experiences using HTML, CSS, and JavaScript. Currently in my final year of Information Technology, I thrive in collaborative environments, continuously learning to build seamless, user-centric interfaces that enhance digital interactions.

EXPERIENCE

Junior Frontend Developer

Rawabit Company   📅 06/2024 - 01/2025   📍 Latakia, Syria

Company Description

- Converted designs into fully responsive and pixel-perfect web pages using HTML, CSS, and Flexbox/Grid.
- Built reusable components and modular CSS for maintainable and scalable UI development.
- Tested UI components for mobile and desktop breakpoints, ensuring consistent user experience across devices.

Web Developer Intern (Full-time)

Dabotics India   📅 11/2023 - 06/2024   📍 Remote

Company Description

- Collaborated with the 15+ development team to implement user-friendly web interfaces.
- Utilized HTML, CSS, and JavaScript to create responsive and interactive web pages.
- Assisted in debugging and optimizing code for better performance and user experience.

PROJECTS

Responsive Nike-store clone

🔗 https://github.com/laithmerai/respomsive-nike-store-website

A responsive e-commerce website for a Nike store, built with HTML, CSS, and JavaScript to ensure a seamless user experience and interactive design.

- Responsive Web Design and front-end development.
- CSS's animations and JavaScript for enhanced interactivity.

Qr generator single page

🔗 https://github.com/laithmerai/QR-CODE-generator-site

A web-based QR code generator built with HTML, CSS, and JavaScript, allowing users to create QR codes instantly. Designed for simplicity, responsiveness, and ease of use.

- Developed a QR code generator single-page app with JavaScript.
- API integration and dynamic content generation.

Little lemon restaurant landing page

🔗 https://github.com/laithmerai/little_lemon-_page

A responsive landing page for Little Lemon Restaurant, designed with HTML, CSS, and JavaScript.

- Created a restaurant landing page with HTML and CSS.
- Added CSS animations for interactive elements.
